SUMMARY

Frontend Developer with 3+ years of experience building scalable, high-performance web applications using React.js, TypeScript, and modern JavaScript. Proven ability to deliver responsive, user-centric interfaces, optimize performance, and improve application reliability. Experienced in collaborating with cross-functional teams to build clean, maintainable, and reusable code.

SKILLS

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks & Libraries: React.js, Redux, Context API, Material UI, Tailwind CSS

Performance Optimization: Lazy Loading, Code Splitting, useMemo, useCallback, Component-Based Architecture

Build Tools & Workflow: Webpack, Babel, NPM, Git, GitHub, Agile

EXPERIENCE

Software Engineer

TheRapidHire

January 2026 - Present, Indore, India

- Leading frontend development for BhoomiWala, owning architecture and end-to-end feature delivery.
- Building scalable, high-performance UI using React.js, TypeScript, Redux Toolkit, and React Router.
- Collaborating with backend teams (Node.js, MongoDB, JWT) to ensure seamless data flow.

Software Development Engineer-1

AJMERA INFOTECH PRIVATE LIMITED

April 2024 - August 2024, Bengaluru, India

- Developed and maintained responsive web applications using React.js, TypeScript, and JavaScript.
- Improved performance through code splitting and optimized asset loading.
- Contributed to code reviews and adoption of modern development best practices.

Front End Developer

VERITY TECHNOLOGIES PRIVATE LIMITED

October 2021 - April 2024, Bengaluru, India

- Built scalable and responsive UI using React.js, Redux, TypeScript, and modern JavaScript.
- Enhanced user experience by redesigning key UI components and improving usability.
- Reduced bugs and improved application stability through proactive debugging and issue resolution.
- Integrated REST APIs using Fetch and Axios for efficient data handling.

PROJECT

BhoomiWala — internal project

- Led frontend development of a property marketplace enabling users to buy and sell agricultural land and farmhouses.
- Lead frontend development using React.js and TypeScript with a modular, component-based architecture.
- Tech Stack: React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit, REST APIs.

Tandem — Diabetes Pump Management Platform

- Built responsive UI components using React.js and TypeScript.
- Delivered accessible and modular components for healthcare workflows.

ShopNew – Ecommerce Web Platform

- Developed a responsive ecommerce application using React.js with a component-based architecture.
- Implemented product listing, filtering, sorting, and cart functionality using React Hooks (useState, useEffect).
- Tech Stack: React.js, JavaScript (ES6), Hooks, Context API, HTML5, CSS3, REST APIs.

EDUCATION

Bachelor of Engineering (Computer Science)

Lakshmi Narain College of Technology • Indore, M.P • 2019
